BSc Mathematics & Computer Science
Université Grenoble Alpes, France

---

6 years building cloud platforms with teams that own them.
Terragrunt Ambassador. Relocating to Switzerland. Work authorization: EU/EFTA.
Available for Senior DevOps Engineer roles. (Platform Engineering / Architecture)

Experience

Senior DevOps Engineer · Freelance
EDF (Energy)   Nov 2024 - Present · Bordeaux

💼 Multi-account AWS platform replacing legacy document system

- Defined target architecture and migration strategy across **5** isolated environments
- Enabled **15** engineers to deploy independently through **self-service** workflows
- Established platform standards for security, SLOs and cost control
- Built and coached a core team of **5** engineers to own platform operations

AWS · Terraform · Terragrunt · GitOps · DevSecOps

DevOps Engineer · Freelance
Ingenico (Payments)   Aug 2023 - Sep 2024 · Valence

💼 Shared CI/CD platform for payment terminal libraries teams

- Designed shared delivery pipelines used by **7** library teams
- Integrated **device-farm** testing, quality gates and automated releases
- Supported teams through the transition from independent pipelines to shared platform

Kubernetes · Azure · GitOps · CI/CD · Docker · DevSecOps

DevOps Engineer · Independent
Hosting Platform (IT)   Jun 2019 - Jul 2023 · Grenoble

💼 Multi-host virtualization hosting platform

- Operated multi-host virtualization (**500+** VMs, **99.9%** SLA), **24/7** ownership
- Implemented tenant isolation using VLANs, firewalls and dedicated storage
- Built **self-service** provisioning/autoscaling and packaged reusable ops templates

AWS · Linux · Proxmox · Hetzner · Kubernetes · SRE · Ansible
